

## **CQG Challenge 2023**

**Aim:** To decorate/embellish a perfume bottle shape in one colour from the colour wheel.

**The Challenge:** To use the colour chosen, sight unseen, from the tin.

**Hints:**

1. The background will be an A4 size of black fabric. (Available at the next CQG meeting)
2. Any technique/s can be used. The more variety the better.
3. Think of shades and tints of your colour to add interest.
4. Try to make at least 90% of your perfume bottle the chosen colour. Small amount of different coloured highlights acceptable.
5. Consider making a stabilised bottle shape separately and appliquéing it to the black background.
6. No wadding, backing, or binding required. All pieces will be assembled into one unit at the end.

**Outcome:**

7. All bottles will be collaged into a "Colour Wheel" installation for display on the wall of Alexander Park Craft House as an example of the CQG interests.
8. Success of the challenge depends on maximum participation and an equal spread of colours.
9. Make more than 1 bottle if desired. Your choice of colour and bottle shape.
- 10. Try something new. Play.**
